PROFESSIONAL SUMMARY

Final-year **Software Engineering** student at Universiti Putra Malaysia (graduating December 2026, **CGPA 3.64**) with hands-on internship experience building enterprise and AI-powered applications. Proficient across the full stack, including **Python**, **Laravel**, **ASP.NET**, **Flutter**, and **JavaScript**, with proven ability to integrate **LLM and AI APIs** (Claude, Gemini, **AWS Bedrock**), deploy on cloud and on-premise servers, and deliver production-ready systems for government and commercial clients.

PROFESSIONAL EXPERIENCE

Vastcomp Holdings Sdn Bhd

Mar 2026 – Aug 2026

Programmer Intern

- Developed and maintained **enterprise-grade** web and mobile applications for government and private-sector clients using **ASP.NET**, **Laravel**, **Python**, and **Flutter**.
- Managed Linux server environments and executed secure remote deployments via **SSH**, maintaining high system uptime and streamlined release pipelines.
- Integrated **Anthropic Claude** models to build intelligent, context-aware features that automated client workflows and reduced manual processing time.
- Led **User Acceptance Testing (UAT)** across multiple platforms, identifying and resolving defects to ensure all releases met client requirements before go-live.

PROJECTS

Vastcomp AI Pro-Sales Chatbot

May – Jun 2026

Vastcomp Holdings Sdn Bhd

Website: <https://ai.vcgroup.com.my/>

- Architected a **RAG-powered AI sales chatbot** using the **Anthropic Claude API**, ChromaDB, and sentence-transformers for accurate, source-grounded product Q&A.
- Designed and deployed a production-ready RAG chatbot using **FastAPI**, **Chainlit**, **Claude API**, ChromaDB, and Nginx.
- Automated a **lead-capture pipeline** that collects visitor contact details and forwards structured summaries to the sales team via **SMTP**.

TrustBites AI: Fake Review Detector

Sep 2025

The Great Malaysia AI Hackathon 2025

Github: <https://github.com/Rikue29/trustbites.git>

- Developed a real-time **fake-review detection platform** using **AWS Bedrock** (Llama 3 70B, DeepSeek-R1) and AWS Comprehend for multilingual sentiment analysis.
- Engineered a full-stack system with **Next.js 15**, TypeScript, Tailwind CSS, and DynamoDB for efficient data caching and sub-second response times.
- Designed a **Trust Score Analytics** engine surfacing confidence-based authenticity metrics via advanced NLP and pattern recognition.

ServerPulse: Real-Time Server Monitoring
Software Engineering Team Project (SSE3400)

Apr – Jun 2025

Github: <https://github.com/Rikue29/ServerPulse.git>

- Built a real-time **infrastructure monitoring system** with proactive alerting using **Laravel 12**, Livewire, TailwindCSS, and Chart.js, collaborating with Tourism Malaysia on deployment.
- Deployed **Python monitoring agents** across multiple servers to automate **CPU, memory, disk, and network** metric collection with historical analytics dashboards.

Hermit: AI Food Waste Reduction App

Apr – May 2025

JomHack Varsity Hackathon 2025, Top 10 Finalist

Github: <https://github.com/Rikue29/hermit.git>

- Designed and developed a **Flutter-based mobile app** that helps Malaysian households reduce food waste through AI-powered recipes, food tracking, and community sharing.
- Implemented real-time food scanning using camera and image recognition, allowing users to log food items instantly with expiry alerts and storage suggestions.

Honeybee: Gamified AI Travel App

May 2025

PETAKOM's Hackathon x UMPSA, Top 10 Finalist

Github: <https://github.com/Rikue29/honeybee.git>

- Developed a gamified travel app inspired by The Amazing Race, integrating **AI-powered itinerary planning**, real-time quests, and social travel features.
- Designed and implemented a **Node.js + Express** RESTful backend integrated with Supabase (PostgreSQL) for user data and media management.

GradReady: AI Interview & Presentation Coach

Apr 2025

KitaHack 2025

Github: https://github.com/Rikue29/grad_ready.git

- Developed GradReady, an intelligent mobile app enabling users to practice interviews and live presentations with real-time transcription and AI-powered feedback.
- Integrated **Google Cloud Speech-to-Text API** for high-accuracy, low-latency voice recognition.

SKILLS

Languages: **Python**, **PHP** (Laravel + Livewire), **JavaScript**, TypeScript, Dart (Flutter), Java, C++, C#

Frameworks & Tools: **ASP.NET**, **FastAPI**, Node.js, Express, Next.js, Firebase, MySQL, MSSQL, PostgreSQL, **Docker**, SSH, Git, Nginx, RESTful API, MVC

AI & ML: **Anthropic Claude API**, **Gemini API**, **AWS Bedrock** (Llama 3, DeepSeek-R1), RAG, ChromaDB, sentence-transformers, Scikit-learn, Google Cloud Speech-to-Text

Cloud & Infrastructure: **AWS** (Bedrock, Comprehend, DynamoDB), Docker, Virtual Machines

Design & Other: **Figma** (UI/UX prototyping), HTML, CSS, Data Visualization, Excel

EDUCATION

Universiti Putra Malaysia

Oct 2022 – Present

Bachelor of Software Engineering with Honours

- CGPA: **3.64**
- **Dean's List Award** (Semester 1); **Vice Chancellor's Award** (Semester 6)
- **Vice President**, Kelab Penyayang UPM

Johor Matriculation College

Jul 2021 – Jun 2022

Science (Life Sciences)

- CGPA: **3.88**

SMK Taman Seri Kluang

Jan 2016 – Dec 2020

SPM: 7A+, 1A, 1A-, Science (Life Sciences)

- President, Pengakap & Kelab Pencegahan Jenayah; Deputy Head Prefect

AWARDS & ACHIEVEMENTS

- **Vice Chancellor's Award**, Semester 6, Universiti Putra Malaysia (2025)
- **Dean's List Award**, Semester 1, Universiti Putra Malaysia (2022)
- **Silver Award**, Student Design Challenge, 6th National Symposium on Human-Computer Interaction (FUSION) 2024
- **2nd Place**, Exploring UI/UX Design: Tools & Prototyping with Figma
- **Top 10 Finalist** (selected from 100+ teams), JomHack Varsity Hackathon 2025 (Hermit) and PETAKOM's Hackathon x UMPSA (Honeybee)

LEADERSHIP EXPERIENCE

Kelab Penyayang UPM

Oct 2022 – Jul 2024

Vice President

- Directed "Penyayang Care 4 U Chapter 2: Care for Networking," a three-day cross-university community engagement event in collaboration with KPUNIMAP.

Sekretariat Sukarelawan Kolej Canselor

Oct 2022 – Jul 2024

Executive Committee Member

- Co-organised a community outreach programme with the Orang Asli community focusing on education, welfare, and cultural engagement; led the Green Fashion Show eco-awareness event.

EXTRACURRICULAR ACTIVITIES

- Hackathon participant: PayHack 2024, KitaHack 2025, UMHackathon 2025, The Great Malaysia AI Hackathon 2025
- Deputy Treasurer, Grand Annual Dinner FSKTM 2025; Treasurer, Poster Perfect: Photoshop Workshop & Challenge
